Organiser comment

50 runners is a record for this low key training event on a map described by the planner as 'an artists impression'. Hope you all enjoyed it, and thanks to John Robinson for planning in what turned out to be adverse circumstances on the day as family sickness deprived him of help putting out the course and added to the usual planners neurosis. Thanks also to Paul Chavasse for his help, and to Jill for keeping you all in order and producing the results.
