

Acton Park Permanent Orienteering Course

Where it is

The start and finish is next to the public carpark off Jeffreys Rd., behind the Cunliffe Arms.

What to do

You visit every control in order. The site of each control is shown by a purple circle on the map; the triangle is the start, the double circle is the finish. At each control you will find an orange and white marker attached to a post, like in the photo. The description sheet on the map tells you what feature each post is at; the control number is on the marker to confirm that you are at the right place. Also on the marker is a letter: to prove that you have visited each control you can write down its letter in the space alongside the description.

Setting off

The start is marked by the triangle on your map, which is just south of the public carpark behind the Cunliffe Arms. With your back to the bowling green, so that you are facing south, turn your map (orientate it to north) to match the features around you. The road into the car park is marked in brown on your map. Use the map to decide how to get to your first control. As you follow your route, keep turning the map so that the top of the map is pointing towards North: this makes it easier to match the map to the ground.
